**The Fall of Paris** Oct 27 2019 Alistair Horne's *The Fall of Paris: The Siege and the Commune, 1870-71* is the first book of Alistair Horne's trilogy, which includes *The Price of Glory* and *To Lose a Battle* and tells the story of the great crises of the rivalry between France and Germany. The collapse of France in 1870 had an overwhelming impact - on Paris, on France and on the rest of the world. People everywhere saw Paris as the centre of Europe and the hub of culture, fashion and invention. But suddenly France, not least to the disbelief of her own citizens, was gripped in the vice of the Prussian armies and forced to surrender on humiliating terms. Almost immediately Paris was convulsed by the savage self-destruction of the newly formed Socialist government, the Commune. In this brilliant study of the Siege of Paris and its aftermath, Alistair Horne researches first-hand accounts left by official observers, private diarists and letter-writers to evoke the high drama of those ten tumultuous months and the spiritual and physical agony that Paris and the Parisians suffered as they lost the Franco-Prussian war.

'Compulsively readable' *The Times* 'The most enthralling historical work' *Daily Telegraph* 'Essential reading for anyone who wants to understand the civil war that still stirs the soul of France' *Evening Standard* One of Britain's greatest historians, Sir Alistair Horne, CBE, is the author of a trilogy on the rivalry between France and Germany, *The Price of Glory*, *The Fall of Paris* and *To Lose a Battle*, as well as a two-volume life of Harold Macmillan.

**Flying the SR-71 Blackbird** Aug 06 2020 For anyone who has ever wondered what it's like to fly the SR-71 on a secret Mach 3 reconnaissance mission, this book has the answer. Completely redesigned and updated with photos from author Colonel Richard H. Graham's personal archive, as well as a new introduction, Flying the SR-71 Blackbird details what an SR-71 mission entailed, from planning to donning a pressure suit to returning to base. The Lockheed SR-71, unofficially known as the Blackbird, was an advanced, long-range, Mach 3 strategic reconnaissance aircraft developed by Lockheed Skunk Works. The aircraft flew so fast and high that not one was ever shot down, even by a missile. SR-71 pilot and instructor Colonel Richard Graham offers a rare cockpit perspective on how regular Air Force pilots and navigators transformed themselves into SR-71 Blackbird crews, turning their unique aviation talents to account in an unprecedented way. Arguably the world's foremost expert on piloting the Blackbird, Graham takes readers along on an operational mission that only a few Air Force pilots have ever experienced.
