Kill the Company Nov 01 2022 In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

Communication of Innovations Nov 08 2020 This collection of 10 original essays honors the intellectual legacy of Everett M. Rogers (1931-2004), the pioneering and distinguished teacher-scholar of diffusion of innovations, communication networks, technology transfer, development communication, and the entertainment-education strategy. Kickstarter Launch Formula May 27 2022 If you're looking for a step-by-step launch framework for your upcoming Kickstarter or Indiegogo campaign, this is the handbook for you! I'll teach you how to use crowdfunding to raise money online and bring your project to life. You see, we're at the beginning of a movement as transformative as the industrial revolution. Never before in history have authors, musicians, artists, and film producers been able to connect with massive online audiences and get funding for their creative work. The outdated media gatekeepers are quickly disappearing. You can now get funding directly from your fans and distribute your content online. If you're a creative type, this is the BEST time to be alive. But, it doesn't stop there. This major change has also given rise to six and seven-figure online businesses. As a fellow entrepreneur, I know that one of the most common excuses for not quitting your job and launching that startup company is because you don't have the money. Now, in a few short weeks, you can have all of the capital you need to launch and grow a thriving ecommerce business. It's no longer a crazy idea to pursue your passion. In fact, more and more millennials are doing just that. I should know, I'm one of them! When I first started blogging about Kickstarter in 2012, I had no idea that crowdfunding would become a multi-billion-dollar industry. I was just a Junior in college, writing a mini-thesis on how different variables affected fundraising success on Kickstarter (for you nerds out there, it was a logistic regression). Flash forward several years, and I'm now one of the top experts in the crowdfunding industry. I started the blog, CrowdCrux, which did over one million views in 2015. I set up a forum called KickstarterForum, which has attracted over six thousand members. I even launched a popular podcast called Crowdfunding Demystified, which has racked up more

than 100 positive reviews in iTunes. Finally, I also put out training videos on YouTube and I am proud to say that the channel is experiencing rapid growth. That all sounds impressive, but actually, when I first stumbled on the website, Kickstarter, I didn't have a clue how it worked. It seemed super confusing and I had SO MANY questions. Since 2012, I've come to master the platform and discover the ins and outs of how crowdfunding really works. I've published many of my findings online and I've been being linked to by sites like CNN, The New York Times, The Huffington Post, and even The Wall Street Journal. In this guide, I'm going to share with you the step-by-step launch strategy for absolutely crushing it on Kickstarter. In no time at all, you'll be raising money for your startup or creative project. I'll make it super easy to copy and implement these tactics and strategies. I'll also share some Jedi Mind Tricks that most marketers don't know about. Before you know it, you'll be a crowdfunding expert! Now, I bet you're thinking... "boy this all sounds like a lot of work. Do I really have to learn all of this? I just want to get funding for my project." Truth be told, it is A LOT to master, which is why having the right teacher can make all of the difference. I'll make sure that you master this material as quickly as possible, so that you can stop fundraising and get back to doing what you love! Either way, whether you decide to run your own Kickstarter campaign, or outsource certain aspects, it pays to know what you're doing. I want to help you smash your Kickstarter goal and then I hope you come on my podcast as a crowdfunding success story. It's time to get serious about making that business you've been dreaming about a reality. It's finally time to get paid for your creative work. Let's get started!

Rediscovering the Religious Factor in American Politics Jan 29 2020 This text addresses whether and how religion and religious institutions affect American politics. For some time, analysts have argued that the conflicts of the New Deal era rendered cultural differences trivial and placed economic interests at the top of the political agenda. The authors and their collaborators - John C. Green, James L. Guth, Ted G. Jelen, Corwin E. Smidt, Kenneth D. Wald, Michael R. Welch, and Clyde Wilcox - disagree. They find that religious worldviews are still insinuated in American political institutions, and religious institutions still are points of reference. The book profits from the new religiosity measures employed in the 1990 National Election Studies. Part I discusses the study of religion in the context of politics. Part II examines religion as a source of group orientation. Part III takes up religious practices and

their political ramifications. Part IV does the same for doctrinal and worldview considerations. Part V explores the sources of religious socialisation. In conclusion, Part VI reviews the research on religion and political behaviour and looks ahead to where work should proceed.

Updated: August 2010. Author Peter Kahrel updated this Short Cut to cover InDesign CS5. Updated: November 2009. Author Peter Kahrel updated this Short Cut to address typos and reader comments. GREP (short for "General Regular-Expression Print") is a powerful tool that lets you use wildcards ("jokers") to search and replace text. InDesign's GREP implementation can be used for text and also for formatting codes, finding patterns in text as well as literal text. GREP moves beyond the restrictions that hampered earlier InDesign search features, but unfortunately it does have the reputation of being difficult to master. As with many things, it can be challenging to learn, but, fortunately, a lot can be done with surprisingly simple expressions. The aim of this Short Cut is to show how to create simple but powerful regular expressions.

Alliance Brand Sep 26 2019 As pressure continues to build on organisations to achieve more with less, partnering offers tremendous promise as a strategic solution. However, up to 70% of such initiatives fail to meet their objectives. In this book, alliance expert Mark Darby argues that, in the age of the extended enterprise, firms must display a positive reputation and hard results from their alliances in order to attract the best partners and stand out from the growing crowd of potential allies. Building on this, he introduces the Alliance Brand concept, explores its critical success factors, and shows in detail how to apply it in your organisation. Darby's straightforward advice and comprehensive maps and tools will guide you on the journey to fulfilling the promise of partnering. The results are higher revenues and reduced alliance failure rates, along with lower costs and fewer risks. Alliance brands also have more satisfied staff and partners, and a transparent, audit-friendly process to satisfy increasing governance concerns. This leads to sustainable alliance success, and ultimately 'partner of choice' status in your chosen industries and markets. That's a compelling return on investment. That's an Alliance Brand.

The Vitamin Cure for Alcoholism Feb 09 2021 This book can be a godsend for many persons--for those who suffer from alcohol addiction, for their friends and loved ones, and for those in the relevant helping professions. Its central message is that alcoholism is primarily a metabolic disease that should be treated with due consideration of its physiological roots. The old moralistic approach and the more recent behavioral and psychological treatment approaches have a dismal record of failure, largely because they pay little or no attention to the crucial physiological and nutritional needs of alcoholics.
